

## SQL-RSVP MOVIES CASE STUDY

- Drama genre has consistently had the highest number of releases, in 2019 alone 1078 drama films were released. Additionally, Drama movies have generated the highest gross worldwide income consecutively in 2018, 2019. RSVP Movies should focus on a Drama-based film as it appeals worldwide and has demonstrated profitability.
- The highest number of movies are released in March, suggesting a higher box office earnings during this month. Target global release in March to align with this trend and maximise viewership.
- The top directors in high-performing genres (Drama, Action, Comedy) are James Mangold, Anthony Russo, and Soubin Shahir.
- The top actors globally with median ratings  $\geq 8$  are Mammooty and Mohanlal. For local appeal in India, Vijay Sethupathi, Fahadh Faasil, and Yogi Babu should be considered.
- A significant 25% of successful movies (105/225) with a median rating above 8 start with the title "The". Consider titling the movie starting with "The" to increase the odds of appeal and recall value globally.
- Dream Warrior Pictures and National Theatre have produced the most highly rated movies. Additionally, Marvel Studios, Twentieth Century Fox, and Warner Bros have garnered the most votes. Consider partnering with these production houses.
- Since RSVP Movies is based in India and wants to woo the local audience, hiring top Indian actors like Vijay Sethupathi and Fahadh Faasil will ensure local engagement.
- Consider these top actresses in Hindi films based on average ratings - Taapsee Pannu, Kriti Sanon, and Shraddha Kapoor.
- Thrillers are often classified as "one-time watch" films, suggesting limited rewatchability.
